

Not all foot controls  
are the same ...

*neither are foot sizes*

The Infinity Foot Control  
*lets you put your best foot forward*  
for all your transcribing  
and dictating needs!

# Try it on for size!

## Compare the Infinity Foot Control to others and you'll see ...

not all foot controls are the same. But, neither are foot sizes! That's why the Infinity Foot Control is designed for comfort and performance. It's a perfect fit for any foot size. With a wide, inclined, center ***Play*** pedal the Infinity gives you easy pivotal foot movement from ***Fast Forward*** to ***Rewind***.

## Weighing only 2.5 lbs., the Infinity Foot Control holds its own ...

without being shuffled around beneath your desk with normal foot movement. This exceptional foot control is built tough, with sturdy armor-like construction and heavy-duty micro-switches to provide countless hours of trouble-free performance. Try one on for size and see why the Infinity Foot Control wears well with the finest transcription and dictation professionals.

*Ergonomically-designed to eliminate virtually any foot fatigue, the infinity Foot Control complements all leading digital and analog transcription and dictation systems.*
